During this time, the Care Group Teacher will provide up to date information for students. From time to time, some of your teachers will be unable to deliver a lesson, due to illness, this will also appear on the Student Bulletin. Even though your teacher may be unavailable, they will have information about what will be required for your lesson. This will be on Daymap.</i></p> <p>If your teacher is delivering an online conference call on Microsoft Teams, that will occur in the first half of the lesson. 1.30 – 3.00 pm	Individual Study				
<p><i>During this time, students will be working on assignments, tasks or conducting research. Subject teachers will generally not be available during this time. Students must be extremely disciplined during this time. This is the time where it is important that if you have any difficulties, you could email your teacher/case manager/mentor to ask for additional support. Your teacher may not see your message until the next day, but they will get back to you. Remember also that your teachers have over 150 students, it may take some time to get back to all students. The best way to have all of your questions or concerns addressed will be to make sure that you are online for every lesson and log onto Daymap and Microsoft Teams when you have your scheduled lesson.</i></p>					
3.00 pm - Care Group:	<p><i>All students will be required to log onto Daymap to read any notices for any arrangements for the next day. During this time, all students will be invited to reflect on the days learning and activities through a personal Gratitude Diary that will be stored in each student's Microsoft Teams Care Group Class Notebook Folder which is accessible only by them and their Care Group teacher. Students will be required to share this reflection with their parents/caregivers and the Care Group Teacher will also review these personal reflections from time to time.</i></p>
