Secondary College

Learning Technology Laptop Program

Roma Mitchell Secondary College is in the exciting position of being able to support both Windows and Apple Laptops for our students that facilitates and enhances their learning. In order to support families we have developed options that will ensure our new students have access to a device.

These are

- Option 1 Buy the device outright from a re-seller where students will be able to use
- Option 2 Families experiencing financial hardship can negotiate an alternative financial arrangement to purchase a device over an agreed time frame.

We offer families the opportunity to take full advantage of education discount by purchasing from our preferred re-seller. We will provide access to an on-line ordering portal towards the end of the year for our newly enrolled families to make their purchases from our re-seller directly if they choose.

Please complete the form [Learning Technology Options](#) and return to:

Please contact Assistant Principal, Learning Technologies, Data Management and Reporting. Please call 8161 4622 if you have any queries.
